

EAGLE MOUNTAIN PLANNING COMMISSION MEETING MINUTES

January 28, 2020, 5:30 p.m.
Eagle Mountain City Council Chambers
1650 East Stagecoach Run, Eagle Mountain, Utah 84005

5:30 P.M. – Eagle Mountain City Planning Commission Work Session

COMMISSION MEMBERS PRESENT: Matthew Everett, Christopher Pengra, Erin Wells, Rich Wood, and Brett Wright.

ELECTED OFFICIALS PRESENT: Mayor Tom Westmoreland, City Councilmembers Melissa Clark and Carolyn Love

CITY STAFF PRESENT: Steve Mumford, Community Development Director; Michael Hadley, Planning Manager; Jessa Porter, Planner; Lianne Pengra, Deputy Recorder; and Elizabeth Fewkes, Recording Secretary.

Commissioner Wood called the meeting to order at 5:32 p.m.

1. Discussion Items

1.A. Utah State Code – Municipal Land Use Development and Management Act – Training

1.B. Eagle Mountain Municipal Code – Subdivisions and Zoning – Training

Commissioner Wood provided training regarding the Utah State Municipal Land Use Development and Management Act. He explained the roles of the Planning Commissioners based on Utah State Code and City Municipal Code, as well as requirements of the Commissioners.

1.C. Eagle Mountain Municipal Code – Concept Plans – Training

Commissioner Wood stated the City Council requested the Commission review the concept plan review process. He suggested the Municipal Code be updated to require Planning Commission and City Council review of concept plans.

Commissioner Wright asked when a concept plan would be presented to the City Council and not the Planning Commission.

Community Development Director Steve Mumford explained that generally, concept plans are optional. Concept plans are only required for projects with a master development plan requirement, which include projects over 160 acres. He stated a concept plan may be presented to the City Council and not the Planning Commission if the Council has been in discussions with an applicant regarding a master development agreement or plan.

Commissioner Wood expressed concern that review of concept plans could waste the time of applicants or the City Council or Planning Commission when the concept plan does not meet Municipal Code. Mr. Mumford explained City staff informs developers of City requirements, but not all applicants comply with the requirements. If an applicant applies for a concept plan and the plan does not comply with Municipal Code, the applicant still has the right to present to the Planning Commission and/or City Council.

Commissioner Pengra recommended the Planning Commission review concept plans based solely on Municipal Code, not on opinion; this offers concise guidance to applicants. Commissioner Wells agreed.

Commissioner Everett stated he prefers that concept plans be presented to the Planning Commission to offer feedback to applicants prior to final projects being presented to the Commission or City Council.

Commissioner Wood requested this item be placed on a future agenda.

6:00 P.M. – Eagle Mountain City Planning Commission Policy Session

Commissioner Wood called the meeting to order at 6:05 p.m.

2. Pledge of Allegiance

Commissioner Wood led the Pledge of Allegiance and introduced newly appointed Commissioners Erin Wells and Christopher Pengra.

3. Declaration of Conflicts of Interest

None.

4. Approval of Meeting Minutes

4.A. January 14, 2020 Minutes

MOTION: *Commissioner Everett moved to approve the January 14, 2020 Planning Commission minutes. Commissioner Wright seconded the motion. Those voting aye: Matthew Everett, Brett Wright, Rich Wood, Christopher Pengra, and Erin Wells. The motion passed with a unanimous vote.*

5. Status Report

Commissioner Wood asked the Commissioners if they would prefer an emailed status report versus a presentation during Planning Commission meetings.

Commissioner Wright stated an emailed report is adequate. Commissioner Everett agreed and said Commissioners can request additional information during the meeting status report.

Commissioners Pengra and Wells agreed, and Commissioner Pengra requested the status report be included during work sessions.

6. Action and Advisory Items

6.A. Marketplace at Eagle Mountain Town Center Master Site Plan and Preliminary Plat – Public Hearing

Mr. Mumford stated the commercial project is approximately 39 acres and is located northwest of the intersection of Eagle Mountain Boulevard and Pony Express Parkway. The project includes a grocery store, retail and office pad sites, and five acres of future commercial area. The applicant's plans included potential future residential development to the north of the proposed site plan; however, the residential development is not part of the item under consideration. The master site plan can serve as a preliminary plat, as allowed in Municipal Code.

Discussion ensued regarding minor changes to approved master site plans and possible notification to the Planning Commission when changes are made.

Commissioner Pengra stated requirement of notification to the Commissioners of every change places undue burden on staff.

Commissioner Wood expressed concern regarding projects obtaining additional rights that were not included with the original approvals.

Commissioners Wells and Wright agreed with Commissioner Pengra regarding allowing City staff to approve minor changes without Planning Commission notification.

Mr. Mumford presented the site plan and a potential phasing plan. He explained the phasing plan may change, based on market conditions.

Commissioner Wood asked if a traffic signal will be required for the increased traffic. Mr. Mumford said the City's traffic demand model determined that Eagle Mountain Boulevard will need to be widened between 2025 to 2028; traffic signals were not included in the model. The City Engineer did not require a traffic study for this project.

Commissioner Wood expressed concern regarding increased traffic without the installation of a traffic signal.

Applicant representative Bill Gaskill explained their intent to begin phase one this year, which includes the pads along Pony Express Parkway. Construction for the anchor grocery store is scheduled to commence March 2021 with a November 2021 store opening. Completion of the full project is expected in five years.

Mr. Gaskill discussed the projected timeline for each phase of the project and how the final design of the anchor grocery store will impact the appearance of the other buildings. The grocery store could move from phase two to phase three, should other businesses desire construction before the completion of the anchor store.

Mr. Gaskill expressed desire to use colors, materials, and elevations not included in City guidelines but stated his willingness to alter the design to meet City specifications. Mr. Gaskill proposed a sixteen-foot LED sign due to retailers' desire for taller signage. Municipal Code allows for signs up to ten feet tall.

Discussion ensued regarding City requirements for signage and structures. Commissioner Wood informed the applicant the Planning Commission will enforce Municipal Code as written and that exemptions should be brought before the City Council.

Mr. Gaskill proposed addressing a traffic study with the grocery store's permitting process. The traffic study from three years ago did not include a grocery store in the commercial development and a new study may be needed. The applicant agreed to align the parking lot entrances with those across Eagle Mountain Boulevard.

Although the preliminary plat excluded the residential area, Mr. Gaskill requested Commission feedback concerning rezoning lot 1A to residential for a combination of single-family units on the north and multifamily units adjacent to the commercial area.

Commissioner Wood suggested the applicant find approved commercial uses for the space, due to the number of existing and approved multi-family housing projects, potential public concern, and probable difficulties in obtaining Council approval,

Mr. Gaskill expressed difficulty in finding commercial purchasers for the space and fear of losing the anchor store should lot 1A retain commercial zoning. Commissioner Wood maintained the desire for business growth in the City and the expectation of sufficient citizen patronization.

Commissioner Pengra supported the need for high-density, affordable housing and financial diversity in the community. He expressed the need for more information before the Commission could make a decision regarding the residential development.

Commissioner Wood informed Mr. Gaskill of recent Municipal Code changes that make rezoning more difficult. Commissioner Wright agreed that new density standards would increase the difficulty of rezoning and advised the applicant to review the changes to Code.

Commissioner Wood opened the public hearing at 7:09 p.m.

Jared Johnson advocated for the need for more multifamily housing in the area, stating a lack of options artificially inflates pricing, and enquired why the City would deny high-density permits.

Jay Horracks stated his desire for the area to remain commercial, believing high-density housing would increase traffic in the area and increase hazards similar to those he has experienced due to the Facebook project construction.

Bruno Hunsaker expressed concern regarding population increase outpacing the implementation of sufficient infrastructure to match traffic demands.

Jonathan Sensky expressed a desire to maintain current City design regulations to retain a rustic, rural aesthetic during inevitable expansion and growth. He stated his concerns regarding educating the public on the proper use of roundabouts, and the need for better lit parking lots in congruence with the dark sky ordinance.

Commissioner Wood closed the public hearing at 7:17 p.m.

Commissioner Everett addressed the concern over the dark sky ordinance. Terms of compliance for lighting should be included in the site plans brought before the City Council and Commission. However, infractions, both private and public, exist in the City to which he has personally raised concerns. The City and State share responsibility for and work together to achieve road implementation. He sympathized with the need for high-density housing and said the location of and the number of previously approved, but unbuilt, multifamily housing projects influence the type of plans the City will approve.

Mr. Mumford shared instances where the City completed projects ahead of the timetable set forth by traffic demand models due to need and plans for expansion. He explained the process of requesting additional funding through Mountainland Association of Governments and the funding cycle constraints limiting the pace of expansion. He suggested further discussion with the applicant about allotting funds for infrastructure expansion, once the residential development is under review.

Commissioner Wright proclaimed Eagle Mountain as one of the highest providers of affordable housing for Utah residents and stated statistically, as of March of 2019, high-density units constituted 14% of City-wide housing. City growth should encompass an array of housing options with an emphasis on mid-range, single family 1/5- to-1/3-acre lots. The City strives to reduce light pollution and to invite commercial development to provide the tax base necessary for infrastructure improvements.

Commissioner Pengra stated the perception of the City as encumbered with high-density housing is a misperception; many areas along the Wasatch Front offer a high number of multifamily residences. He supported approving more affordable, high-density units within appropriate areas in the City to help provide patronage of local businesses. He reiterated the fact that the Commission does not have sufficient data to make an informed decision on the possible residential development noted on the Marketplace plans.

Commissioner Wood concurred with the priority of prescriptive demographic planning for both infrastructure function and harmonious City-wide design aesthetics that benefit the community.

The Commissions' decisions must include consideration of pre-approved projects, anticipation of future requests, and expectation of the timetable for completion of vested rights.

Commissioner Everett indicated support of and excitement for the construction of the grocery store, as an asset to the City to help attract other businesses. He stated there will be inevitable alterations of the proposal and informed the applicant of the City's denial of Ridley's Family Market's request for a sign that did not comply with Municipal Code.

Commissioner Wright requested alterations to include continuity in the landscape plan among the lots and for site F to comply with Municipal code.

MOTION: *Commissioner Pengra moved to recommend approval to the City Council of the Marketplace at Eagle Mountain Town Center master site plan and preliminary plat with the following conditions:*

- 1. A development agreement shall be prepared to be approved by the City Council, detailing the improvement and timing of the rights-of-way improvements (asphalt, curb and gutter, trail, landscaping, turn lanes, streetlights, etc.), the project trails and landscaping, and the fencing behind the commercial areas;*
- 2. Applicant shall submit a landscaping plan for staff approval for the rights-of-way along Eagle Mountain Boulevard, Pony Express Parkway, and the trail area between this project and Autumn Ridge subdivision;*
- 3. The building elevation shall be revised to comply with EMMC 17.72.040(C), (D), and (E), by adding additional architectural detailing and including additional horizontal articulation/modulation;*
- 4. Applicants shall submit grading/drainage/erosion plans and lighting plans with each site plan application;*
- 5. The combined monument sign shall be brought into compliance with approved standards set forth in EMMC 17.80.070(A);*
- 6. As much as possible, buildings shall be located at or near the minimum front setback line, with pedestrian access leading to the primary entrance and landscaping between the building and the street; and*
- 7. The Eagle Mountain Boulevard ingress/egress between pads G and H shall be moved to align with the access points on the south side of Eagle Mountain Boulevard.*

Commissioner Wright seconded the motion. Those voting aye: Matthew Everett, Brett Wright, Rich Wood, Christopher Pengra, and Erin Wells. The motion passed with a unanimous vote.

6.B. SilverLake South 21 & 24 Site Plan – Public Hearing

Planning Manager Michael Hadley presented an overview of the project and stated the City Council approved the preliminary plat on October 1, 2019. SilverLake Plat 21 consists of a total

- of 59 units: 27 single-family lots and 32 townhome units. Plat 24 consists of a total of 72 units: 39 single-family lots and 33 townhome units.
- Commissioner Wells inquired about the location of guest parking and expressed safety concerns regarding the proximity of the playground to the fire pits. Mr. Tatton agreed to reconsider the layout.

Commissioner Everett stated, for the record, concern the front-loading garages failed to meet Municipal Code requirements and verified back fencing of the lots.

Commissioner Wood requested an increase in articulation in architecture through variance in elevations, materials, and/or colors on the front and rear façades, to add distinction and division among the individual units. The applicant agreed to explore potential revisions to the colors and materials.

Commissioner Wood opened the public hearing at 7:59 p.m. As there were no comments, he closed the hearing.

Commissioner Everett reiterated concern regarding front-facing garages dominating the front of the units which fails to comply with Municipal Code. Discussion among the Commission ensued. Commissioner Everett indicated an increase in architectural movement may rectify the issue. The number of existing high-density units in SilverLake with similar designs compounded his apprehension with approving the project.

Commissioner Wood proposed discussing the Municipal Code requirements for garages on multifamily homes during the next work session. Commissioner Everett indicated his desire to enforce the Code as written.

Commissioner Pengra noted the difficulty in making the garage a non-dominant feature due to the ratio between the widths of the garages and the individual units. He stated his support of the current design as more aesthetically appealing than other units and felt the proposed changes would increase costs without improving the overall aesthetics of the units.

Commissioner Wood supported the desire for an increase in distinction between the units and expressed concern over the 20-foot length of the driveways. Municipal Code requires 22 feet for single-family residences but allows shorter lengths for multifamily units.

Commissioner Wells stated unease over the distance between the guest parking and the homes, fearing people will park along the street which will create issues for snowplows.

Commissioner Wright questioned the applicant about an ADA-compliant parking stall. Mr. Tatton indicated an appropriate location to add ADA parking.

Commissioner Wright asked Mr. Mumford for the ratio of approved high-density homes to single-family homes in the area. Code allows for a maximum of 20%. Mr. Mumford indicated the need to research and compile the numbers.

MOTION: *Commissioner Pengra moved to recommend approval to the City Council of the SilverLake South 21 & 24 site plan with the following conditions:*

- 1. Applicant shall pay a landscape cash escrow to the City of \$2,810.40 per lot/unit at plat recording;*
- 2. The fencing along Golden Eagle Road shall match the collector road fencing approved for the SilverLake South area;*
- 3. The rear elevation shall be changed to include more architectural articulation, and the material and color shall be changed to be more in line with the current multifamily design standards;*
- 4. The firepit shall be moved away from any structures; and*
- 5. An ADA-compliant parking stall shall be included;*

Commissioner Wells seconded the motion. Those voting aye: Christopher Pengra, Erin Wells, Rich Wood, and Brett Wright. Those voting nay: Matthew Everett. The motion passed with a vote of 4:1.

6.C. Holiday Oil Sunset Drive Conditional Use Permit – Public Hearing

Mr. Hadley stated the Planning Commission reviewed the preliminary plat and site plan for the Holiday Oil on Sunset Drive on December 10, 2019. The Planning Commission recommended approval with conditions requiring the submission of a conditional use permit application prior to City Council review of the site plan and preliminary plat, the applicant meeting with the Utah County Sheriff's Office to determine a plan to resolve traffic and safety concerns, and working with Blackridge Elementary to finance a fence on the south border of the school property.

Applicant John Linton with Holiday Oil stated he had scheduled a meeting with Heather Jensen, principal of Blackridge Elementary School, for Friday, January 10 to discuss the school district's fence preferences and stated a willingness to assist with the financing and construction of the fence. He had not yet met with the Sheriff, but will schedule a meeting; the applicant stated he has generated a traffic report.

Commissioner Wells questioned the applicant about the proposed location of the fence. Mr. Linton indicated a potential area for the fence but stated his intent to consult with the school district before finalizing the plan.

Commissioner Wells asked the applicant if he intended to purchase more land to the west of the project. Mr. Linton responded they are still in discussions with the landowner. They do not have any specific plans but may purchase the land and bank it to allow for future expansion.

Commissioner Wells asked if the applicant would consider additional entrances to the property. He agreed to consider additional connectivity.

Commissioner Wells verified the proposed exit would only permit right-hand turns onto Sunset Drive.

Commissioner Wood opened the public hearing 8:31 p.m. As there were no comments, he closed the hearing.

The Commission discussed the current and potential increase of parking issues due to the return of moving vehicles to Sunset Storage, north of the project.

Commissioner Pengra mentioned issues with a previous gas station failing to install lights built to Code then retroactively devising inadequate solutions to address complaints. He expressed the desire to enforce the installation of dark sky ordinance-compliant lights during construction.

MOTION: *Commissioner Everett moved to approve the Holiday Oil Sunset Drive conditional use permit with the following condition:*

1. The applicant shall be in full compliance with the dark sky ordinance upon construction.

Commissioner Wright seconded the motion. Those voting aye: Matthew Everett, Brett Wright, Rich Wood, Christopher Pengra, and Erin Wells. The motion passed with a unanimous vote.

6.D. JJ Ranches Preliminary Plat – Public Hearing

City Planner Jessa Porter presented the preliminary plat for JJ Ranches. The applicant requested to divide a 13-acre lot in the Pole Canyon area to construct single-family residences on two five-acre parcels, retaining the remaining three acres for farming.

The Commission discussed and clarified the designations of the plat. The lot falls under the Pole Canyon Master Development Plan as mixed-use residential and allows for up to 5.5 units per acre; the property could be subdivided if supplied with the necessary infrastructure. A private lane provides access to the south side of the plat.

Mr. Mumford stated Municipal Code does not require public road access to a single-family residence. The private lane initially provided access to Strides Pediatric Therapy, which is located across from the plat in question. Due to the residential zoning of the surrounding area, staff indicated the division of the plat should not cause disunion issues with future development.

Applicant representative Kent Withers with McNeil Engineering indicated the intent for the paved lane to remain private and provide access for the surrounding areas and mentioned a plan for the creation of an easement for existing water and utility lines. No sewer access connects to the area, requiring septic system use.

Commissioner Wells questioned the applicant about the variance of lot size regarding future development in the area. The applicant has no knowledge of any current discussions of subdividing other lots. The family desires to separate these two lots for residential housing and maintain farming on the remaining portion of the land.

The Commission and staff discussed the Pole Canyon Master Development Agreement and density designations of the area.

Discussion ensued regarding septic tanks and potential future connections to City sewer. Mr. Mumford explained when connections to City sewer are required and stated a note on the recorded plat will inform property owners of the requirement of connecting to City sewer lines at the owners' expense, if the lines come within the distance requiring the connection.

Commissioner Wood opened the public hearing at 9:01 p.m.

Bruno Hunsaker stated his desire for the area to only contain larger lots and expressed frustration with paying for sewer services even though his home does not connect to the City line. He voiced concern with allowing construction in the area, due to past flooding and suggested the need for drainage improvements.

Commissioner Wood closed the public hearing at 9:04 p.m.

Commissioner Wright responded to Mr. Hunsaker's frustrations with the assurance of the City's efforts to expand sewer line availability.

MOTION: *Commissioner Pengra moved to recommend approval to the City Council of the JJ Ranches preliminary plat. Commissioner Everett seconded the motion. Those voting aye: Matthew Everett, Brett Wright, Rich Wood, Christopher Pengra, and Erin Wells. The motion passed with a unanimous vote.*

Commissioner Wood called for a recess at 9:05 p.m., and reconvened the meeting at 9:10 p.m.

6.E. City Sign Rezone – Public Hearing

Mr. Hadley presented an overview of the project: a digital, welcome/information sign near the eastern entrance to the City along Wride Memorial Highway. The sign location must be approved by UDOT, as it will be placed along a State road. UDOT requirements limit sign erection to commercial or industrial zones. The owners of The Ranches Golf course have identified a location for the sign and agreed to allow the City an easement on their property. This application requests a rezoning to commercial of the proposed location.

Mr. Mumford explained UDOT may deny the application because State guidelines prohibit rezoning expressly for signage. The Ranches Master Development Plan designates the parcel as Golf Course Open Space and carries a deed-restriction by the City to prevent commercial use of the site. Mr. Mumford suggested expanding the area to approximately twice the size to connect it to a larger commercial area.

Commissioner Wood suggested tabling the item until Mr. Mumford acquires approval from The Ranches Golf Course of the additional land to be rezoned.

Mr. Mumford advised the Commissioners to approve the motion and allow him to consult with the City Attorney.

Commissioner Wood opened the public hearing 9:18 p.m. As there were no comments, he closed the hearing.

Commissioner Wood expressed desire to not move forward on the rezone without the precise conditions in place.

Mr. Mumford suggested the Commission recommend approval to the City Council with a condition to extend the property to the west.

Discussion ensued among the Commission and Mr. Mumford regarding how to best express their recommendations to the City Council while adhering to UDOT regulations.

Commissioner Pengra expressed concern over a lack of a legal description of the property to be rezoned. Commissioner Wright supported tabling the request.

Commissioner Pengra stated his preference to maintain transparency by retaining the inclusion of signage as the purpose for the rezoning request.

MOTION: *Commissioner Wright moved to table the City sign rezone until the February 11, 2020 Planning Commission meeting, and requested staff provide a legal description and define the exact area to be rezoned. Commissioner Wood seconded the motion. Those voting aye: Matthew Everett, Brett Wright, Rich Wood, Christopher Pengra, and Erin Wells. The motion passed with a unanimous vote.*

6.F. Amendment to the 2020 Planning Commission Meeting Schedule

The proposed amendment changes the start time of the Planning Commission policy session from 6:00 p.m. to 6:30 p.m., allowing for an hour-long work session from 5:30 p.m. to 6:30 p.m.

Commissioner Wells suggested the inclusion of the ability to amend meeting start times, in accordance with workload requirements. She stated it is not likely that all work sessions will contain enough items to require an entire hour.

Commissioner Wood stated his intent of always including sufficient material to require a full hour.

Commissioner Pengra said, due to public attendance of the policy session, both meetings should adhere to set start times.

MOTION: *Commissioner Everett moved to approve the amended 2020 Planning Commission meeting schedule. Commissioner Wood seconded the motion. Those voting aye: Matthew Everett, Brett Wright, Rich Wood, Christopher Pengra, and Erin Wells. The motion passed with a unanimous vote.*

6.G. Amendment to the Eagle Mountain City Planning Commission Rules of Order and Procedure

The amendment includes changes that relate to duties of the Planning Commission Chair, meeting agendas, and conflicts of interest. The amended document includes corrections to Municipal Code references.

The proposed addition to Title I Section C, Duties of the Chair, states the Chair will authenticate by signature, when necessary, or when directed by the Commission, all of the acts, findings and orders, and proceedings of the Commission.

The proposed addition to Title III Section C, Agendas for Meetings, notes two members of the Planning Commission may request an item to be added to the agenda by sending a request by email or in writing to the Planning Director prior to the Wednesday before the next Planning Commission meeting. The amendment also references Eagle Mountain Municipal Code 17.05.190 Tables and notes the Planning Commission is an appeal authority.

The amendment to Title VII Section B, Conflict of Interest/Disqualification, adds section B.1.a: if a member is acting in the capacity of an applicant, the member will not sit at the dais and will not perform their duties as a Planning Commissioner, for that specific application. The Municipal Code references have also been corrected.

Discussion ensued regarding the timeline of the Commission Chair's signing of documentation and clarification of authentication procedures. The Commissioners discussed potential implementation of additional verification procedures to ensure agenda items sent for consideration to the City Council reflect the intentions of the Commission, as well as the logistical feasibility of such procedures. Commissioner Wood proposed to work with Mr. Mumford to verify agenda items sent to the Council contain correct information.

Discussion ensued regarding the specification of exclusions of Commissioners due to conflicts of interest and adherence to State and City Code.

Commissioner Wells expressed concern over the conflicting verbiage relating to conflicts of interest in Municipal Code and the Rules of Procedure. Municipal Code indicates a person with a conflict of interest "will normally" leave the meeting until the conclusion of the discussion of and vote on the agenda item, and the member may not exert influence outside of the meeting; however, the Rules of Order and Procedure states the member "shall" leave the room. The Commissioners agreed to change "shall" to "will normally" to better align with Municipal Code.

Mr. Mumford informed the Commission of a recommendation from the City Council to amend the document to specifically allow the Planning Director to add items to an agenda. Commissioner Wood stated the Municipal Code already allows for the Planning Director to make additions to agendas.

Commissioner Pengra expressed concern the Planning Commission Rules of Order and Procedure, in addition to other rules and regulations, creates procedural burden, redundancy, and potential confusion.

MOTION: *Commissioner Wood moved to approve the Planning Commission Rules of Order and Procedure, as noted in the presented document and discussed. Commissioner Wells seconded the motion. Those voting aye: Matthew Everett, Brett Wright, Rich Wood, Christopher Pengra, and Erin Wells. The motion passed with a unanimous vote.*

7. Discussion Items

None.

8. Next scheduled meeting

The next scheduled meeting is February 11, 2020.

9. Adjournment

MOTION: *Commissioner Pengra moved to adjourn the meeting at 10:17 p.m. Motion not seconded. Those voting aye: Matthew Everett, Brett Wright, Rich Wood, Christopher Pengra, and Erin Wells. The motion passed with a unanimous vote.*

Approved by the Planning Commission on February 11, 2020.

Steve Mumford, AICP
Community Development Director
