5:00 PM STRATEGIC PLANNING SESSION - CITY COUNCIL CHAMBERS.

The purpose of this planning session is to begin crafting a new Vision for Eagle Mountain City that will shape the City's long-term direction, and to discuss the focus areas and priorities that will support that Vision. This is discussion only and no action will be taken.

1. WELCOME

Mayor Gray welcomed the Council and Staff to the Strategic Planning Session at 5:07 PM.

2. DISCUSSION AND INFORMATION ITEMS

2.A. RESOLUTION – DISCUSSION ONLY/NO ACTION – Strategic Planning Discussion

City Manager Ben Reeves opened the meeting and presented videos regarding organizational vision. Director of Legislative and Strategic Affairs Evan Berrett continued the presentation and discussed the purpose of establishing an organizational vision that reflects the needs and expectations of both Eagle Mountain City residents and Staff.

The City Council discussed the importance of obtaining both resident and Staff support for the organizational vision. Members considered the existing vision statement, including why it may no longer reflect the City's current direction and the history behind its development. The concept of "The Eagle Mountain Way" was also discussed, including how the City's unique characteristics and identity could be reflected in its vision and future direction.

Councilmembers Whiting and Huish offered a proposed Vision Statement as a starting point for further discussion and development. The proposed statement was considered in the context of the City's identity, the needs of residents and Staff, and the concept of "The Eagle Mountain Way."

The City Council continued to refine the Vision Statement and brainstormed language to further define the vision for Eagle Mountain City. The Vision Statement was finalized as: "Eagle Mountain City is creating the most distinct way of life, honoring our rural heritage and cultivating unparalleled open space and recreation, powered by building the most prosperous community in Utah County."

Director of Legislative and Strategic Affairs Evan Berrett then shifted the discussion to the Focus Area portion of the process and presented the proposed Focus Areas as a framework for continuing to develop the City's vision. Councilmembers discussed how various departments and priorities fit within the Focus Areas. The proposed Focus Areas included Citizen Experience, Stewardship, Essential Services, Regional Partnerships, and Economic Prosperity.

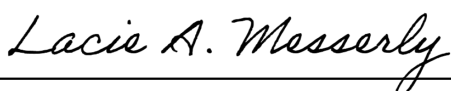

Councilmembers brainstormed potential priorities within each Focus Area and discussed how those priorities could align with the appropriate Focus Area and how department heads could use the Vision Statement to guide priorities and activities within their respective departments.

At the conclusion of the discussion, Councilmembers suggested presenting the Vision Statement and Focus Areas to City departments for feedback. Department heads would then identify key projects currently underway within their departments. A future meeting will be scheduled to finalize the Council Priorities.

3. ADJOURNMENT

Councilmember Gray closed the Strategic Planning Session at 8:52PM.

Approved by the City Council on October 6, 2026.
